

Hello Grade 10 Students and Caregivers,

On Thursday November 15th, guidance counsellors visited all current Grade 10 Civics and Careers classes to discuss volunteer hours and the importance of choosing the appropriate grade 11 English, Math and Science courses based on a student's desired post-secondary pathway.

This presentation will also take place again next semester for those students who do not have Civics and Careers this term.

If your student completed Civics and Careers in the summer, refer them to the link attached or have them make a guidance appointment and we will walk them through the information.

Please use the link below to view the slideshow presented to those Civics and Careers classes. This presentation, along with other important links can also be found on each student's Grade 10 D2L page.

Link to presentation [HERE](#).

Kindly,
Your WNSS Guidance Department
