

Dear Parents/Guardians,

As part of our ongoing work to build safe, welcoming, and inclusive school communities, we are pleased to let you know that on October 15, all DSNB secondary students and staff will participate in a live virtual keynote presentation by Dr. Andrew B. Campbell (Dr. ABC).

Dr. Campbell will speak with students about belonging, community, and the role each of us plays in creating and maintaining schools where everyone feels valued, respected, and able to learn, achieve, and thrive.

This presentation is part of broader learning taking place in our secondary schools throughout the fall. Students will be considering what helps people feel a sense of belonging at school and the individual and collective actions we can take to contribute to a positive school community. This work supports DSNB's commitment to building a 100% Culture – a school culture in which every student is known, valued, supported, and able to succeed.

The 20-minute presentation will take place during the instructional day and will be supported by school staff.

If you have any questions about the presentation, please contact the school.

Thank you for your continued partnership in helping us build safe, welcoming school communities where all students can learn and thrive.

Sincerely,
Janice Sargeant (She/Her)
Principal
West Niagara Secondary School
District School Board of Niagara
